ARTICLES / ARTICLES

Bernard R. Baum and Douglas A. Johnson The South African *Hordeum capense* is more closely related to some American *Hordeum* species than to the European *Hordeum secalinum*: a perspective based on the 5S DNA units (Triticeae: Poaceae) 1

Wolfgang Maier, Dominik Begerow, Michael Weiß, and Franz Oberwinkler Phylogeny of the rust fungi: an approach using nuclear large subunit ribosomal DNA sequences 12

José L. Vesprini, Leonardo Galetto, and Gabriel Bernardello The beneficial effect of ants on the reproductive success of *Dyckia floribunda* (Bromeliaceae), an extrafloral nectary plant 24

Usher Posluszny and P. Barry Tomlinson Aspects of inflorescence and floral development in the putative basal angiosperm *Amborella trichopoda* (Amborellaceae) 28

G. Hausner, G.G. Eyjólfsdóttir, and J. Reid Three new species of *Ophiostoma* and notes on *Cornuvesica falcata* 40

Sylvi M. Sandvik and Ørjan Totland Quantitative importance of staminodes for female reproductive success in *Parnassia palustris* under contrasting environmental conditions 49

Kathleen. M. Rühland, John P. Smol, and Reinhard Pienitz Ecology and spatial distributions of surface-sediment diatoms from 77 lakes in the subarctic Canadian treeline region 57

Instructions to Authors I-1
